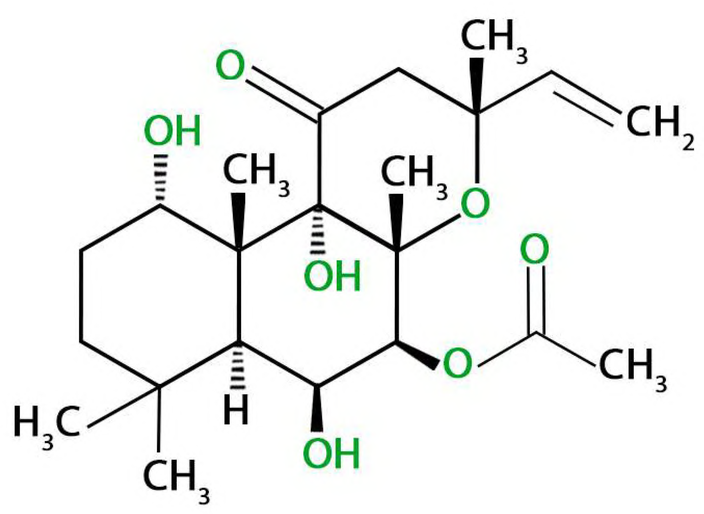
We offer high quality of Coleus Extract from our world class facility. Our herbal extracts are highly appreciated by our patrons across the country for their purity, safe to use and economical price.

Geographical Distribution

India is considered as a hot spot region for the plant diversity and about one fifth of the Indian plants are found to have medicinal properties. Coleus is a member of the mint family and native to India and grows in the subtropical temperate climates of India, Nepal, Thailand and Sri Lanka. It is a popular ornamental plant used as a sedative in Africa, Arabia, and Brazil. In India, the major medicinal Coleus plant species are the tuberous *C. forskohlii, C. amboinicus, C. blumei, and C. malabaricus* used for weight management and cosmetics

Bioactive Compound

In modern medicine, *C. forskohlii* gained an importance after the emergence of the therapeutic properties of the Forskolin (FSK, 3) (7-β-acetoxy-8, 13-epoxy-1α, 6 β, 9α-trihydroxy-labd-14-ene-11-one). The root extract of *C. forskohlii,* Forskolin is the major compound having high therapeutic value.



Specifications

Common name
Coleus

Botanical name
Coleus forskohlii

Plant part use
Root

Appearance
Reddish brown coloured powder

Storage condition
Cool & dark place

Method of Extraction
Solvent Extraction

Method of Analysis
By HPLC
